Share E-mail Folders

By Sharing E-mail Folders you allow your colleagues access to your e-mail folders, either for viewing or for modifying.

- 

Unknown macro: {link-window}

<https://cp.emailarray.com> 

- Log in using your full e-mail address (user@domain.com) and current password.
- Click on the **Folders** icon
- Click on **Edit** icon (pencil) next to the folder you wish to share
- Click on the New Share button
- Select the user you wish to give permission to and the permissions users will have
- Click on the **Share button**

By default, your own account has full permissions on the folder you are editing. Make sure not to erase your own permissions or you will lose access to that folder
